6. Brief description of the reason for your proposal.

The motivation must contain a clear description of the benefit of this proposal for the Servas community; its member groups, individual members and Servas International as an international non-governmental organisation.

SIGA 2025 should approve this motion because (one or more motivations):

- The purpose of this motion is to clarify the purpose of Servas International with reference to and in accordance with the legal framework proposed by the CAGI (Welcome Centre of International Geneva), given that SI is an association registered in Switzerland. ([Model statutes of the CAGI](#))
- The current text is the result of numerous additions and amendments made over the years, making it less clear. ([comparative table explaining the proposal](#))
- In order to mobilise members around the same project and to ensure that this project is clearly shared, the object of an association must not allow for divergent interpretations in its wording. It must be clear and comprehensible to all members. In addition, a confusing wording gives way to different interpretations of the identity of the association and is liable to weaken it.
- The statutes must clearly set out the purpose of the association and the activities carried out to achieve this purpose. In their object, they delimit its field of action.
- the simple reorganisation of the introduction and article 1 of the current statutes that we are proposing, with a matching of the headings and content of the paragraphs, will make it possible to clearly present the characteristics of Servas as an NGO, its values, its identity, its purpose, its activities, its organisation and structure, and its financial resources.
