

## A Volunteering Opportunity in Turkey

July 06-16th, 2016

### ***Come Live with Us Share with us (Peace School)...***

I am so excited to share that we are going to hold the **8th Servas Live with us Share with Us Children Programme (LUSUP)** in my village, Ekinci (3aydiy) in Antakya, Turkey. Within this project we invite Servas people to come and volunteer in the village. Volunteers teach kids-aged 7-14 anything they know such as peace, drama, children songs, languages, chess, pandomime, environmental issues, art, cooking, etc. We teach in a big garden, a house yard, olive trees garden and streets. Everywhere is a classroom for us. The main goal of this programme is to open new doors in the local children's lives. Volunteers stay with local families and exchange experiences with them. Families serve meals and their hospitality. Everyone is so friendly and welcoming and ready to hug the volunteers.

The children and the parents are already asking for this event like every year and we want to know who is coming this year. We planted seeds of Servas with children (70 kids with their parents) in 2009 and now inviting you to come and water these seeds next July (6th-16th, 2016)

Would you like to share your experience and knowledge with kids? If yes, then come and live with us ...

**Note:** Within the programme, we organise workshops on peace, world citizenship, developing Servas idea, etc. for and with the volunteers. Also, we go sightseeing to discover the area.

Please do visit the links first to see the broad frame of the event

Links;

1. The short film of the programme;

[Peace School of Servas](#)

2. Facebook Link. Here you can see what we have done for 5 years. With photos and activities.
